Margins365 — Data Processing Agreement and subprocessors
Version 20.1 · Effective date: 11 November 2026 · Approved (v20.1 adds optional, consent-based analytics; it is published in the release that turns analytics on)

This Data Processing Agreement (“DPA”) forms part of the Margins365 Terms between the customer (“Customer”, the controller) and Margins365 (“Margins365”, the processor). It applies when Margins365 processes personal data on the Customer's behalf, and meets Article 28 of the UK GDPR and the EU GDPR. It takes effect when the Customer accepts the Terms.

1. Processing details

Item	Details
Subject matter and purpose	Importing, cleaning, storing, analysing and presenting the Customer's sales data to provide the Margins365 service; exports; support; deletion
Duration	The subscription term until access ends, then deletion (section 7)
Nature	Receiving, filtering, storing, calculating, displaying, exporting and erasing
Personal data	Order and line identifiers, dates, amounts, products, fees, refunds, buyer country/region; buyer names, emails, phones and addresses present in raw files only until removed at import; names and emails of Customer team members
Data subjects	The Customer's buyers; the Customer's staff and team members; sole traders
Special category data	Not intended; the Customer must not upload it

2. Customer instructions

Margins365 processes personal data only on the Customer's documented instructions — these Terms, this DPA and the Customer's use of the service — unless the law requires otherwise, in which case it tells the Customer first unless the law forbids it. Margins365 tells the Customer if it believes an instruction breaks data protection law. The Customer is responsible for having a lawful basis and giving notices to its buyers.

3. Confidentiality and security

Everyone authorised to process the data is bound by confidentiality. Margins365 keeps appropriate technical and organisational measures, including: encryption in transit and at rest; removal of buyer contact details at import; deletion of original files after import; access limited to authorised personnel with two-step sign-in; hashed passwords and secure session cookies; rate limiting; logs without file contents or secrets; backups kept no longer than 7 days; regular deletion and restore tests.

4. Breaches

Margins365 notifies the Customer without undue delay, and in any case within 48 hours, after becoming aware of a personal data breach affecting the Customer's data, with the information available, and updates it as more is known. It helps the Customer meet its own reporting duties.

5. Assistance and audits

Margins365 helps the Customer, taking into account the nature of the processing, to answer data subject requests, carry out data protection impact assessments and meet its security and breach obligations. It makes available the information needed to show compliance with this DPA and allows audits by the Customer or its auditor on 30 days' notice, once a year unless a breach or regulator requires more, under reasonable confidentiality.

6. Subprocessors

The Customer gives general authorisation for the subprocessors below. Margins365 will give at least 30 days' notice of a new or replacement subprocessor by email to account owners and on this page; the Customer may object on reasonable data protection grounds, and if no solution is found may cancel and receive a pro-rata refund of prepaid fees. Margins365 puts equivalent data protection terms in place with each subprocessor and stays responsible for them.

Subprocessor	Service	Data Location
DigitalOcean, LLC	App hosting, managed database and backups (App Platform, Managed PostgreSQL)	All Customer data held in the service	London, UK (LON1)
Cloudflare, Inc.	Content delivery, reverse proxy and bot management (the	

essential __cf_bm security cookie)
IP addresses, the __cf_bm cookie, request metadata and traffic as it transits the proxy
Global (Cloudflare network)
Amazon Web Services (Amazon SES)
Transactional email (account, team invites, reminders, contact-form notifications and copies)
Email addresses, names, business names, message content of those emails
Stockholm, EU (eu-north-1)
Google (Gmail) Mailbox Margins365@gmail.com
Contact-form fields Global, including the United

Service providers for Margins365's own website (not subprocessors of Customer data). These process data for Margins365 as controller, not Customer data, and are listed here so the full list of providers is in one place:

Provider Service Data Location
Plausible Analytics (Plausible Insights OÜ, Estonia)
Website analytics on public pages, only after the visitor accepts; no cookies; never used in the signed-in service
Page views, referrer, country, device and browser type; IP address and user agent used only to create a daily-rotating anonymous hash, not stored.
No Customer shop data
EU only (Hetzner, Germany; UpCloud, Finland; Bunny CDN, Slovenia)

Independent controllers (not subprocessors): Stripe / Link (Sold through Link, LLC) for checkout, payments, invoices and tax as merchant of record; Google for “Continue with Google” sign-in. Each processes data under its own privacy terms.

Transfers. Where a subprocessor processes data outside the UK or EEA, Margins365 relies on adequacy regulations or the UK International Data Transfer Addendum / EU Standard Contractual Clauses in that subprocessor's data processing terms.

7. Return and deletion

While access is active the Customer can download its data (CSV) at any time. When access ends (after cancellation at the trial or paid-period end, final failed payment or a first-payment refund), Margins365 deletes all Customer personal data in the service; backups are cleared within 7 days. Margins365 keeps only what the law requires it to keep, such as billing records, and uses that only for that purpose.

8. General

If this DPA conflicts with the Terms on data protection, this DPA wins. It is governed by the same law as the Terms.
